

Product Attachment Extension

With Product Attachments, you greatly enhance the customer's shopping experience. Magento 2 Product Attachment Extension by TheOnlineHelper allows you to attach informative files with your products. You can upload documents such as user guides, certificates, licenses, prices list etc. You can attach the same attachment for multiple products. The attachment will show on the product page with a specific icon. We have added default icon images in code for png, jpg, CSV, doc, gif, mov, pdf, tgz, txt, xls and zip file types. You also have the configuration settings to show attachment in the product details or in the separate product attachment tab. You can also change the tab label as you want. The attachment will show on the product page with a specific icon.

Installation

How to Install?

- Download the .zip file of Product Attachment Extension.
- Extract the downloaded file.
- Paste the file in your app/code directory.
- Run the following commands to install the module.

```
php bin/magento setup:upgrade  
php bin/magento setup:di:compile  
php bin/magento setup:static-content:deploy
```

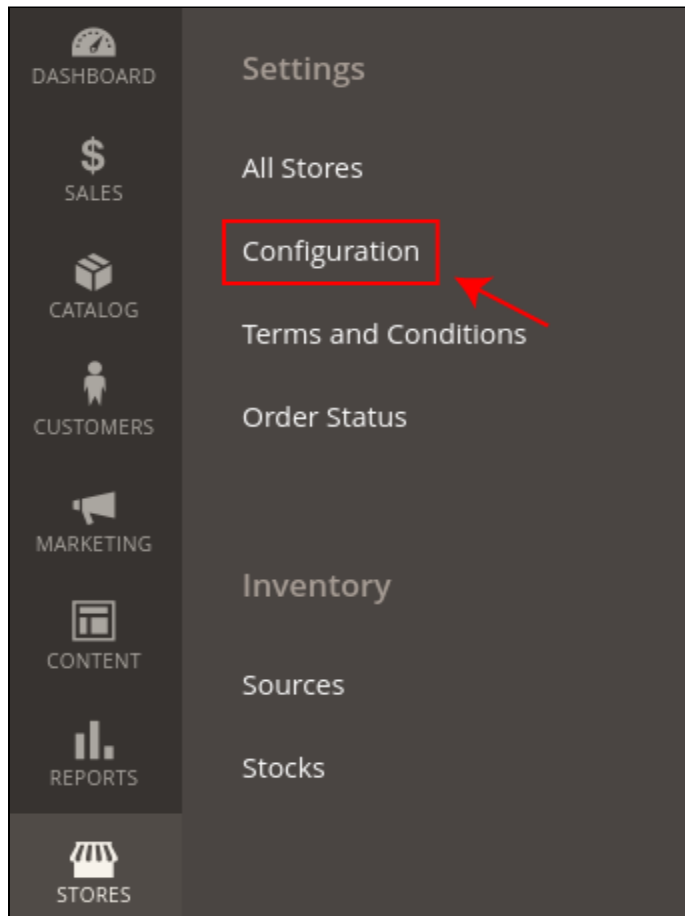

- Now run the command to clean cache.

```
php bin/magento cache:clean
```

ConfigurationProduct

How to configure?

- In the admin panel, go to **STORES > Configuration**.

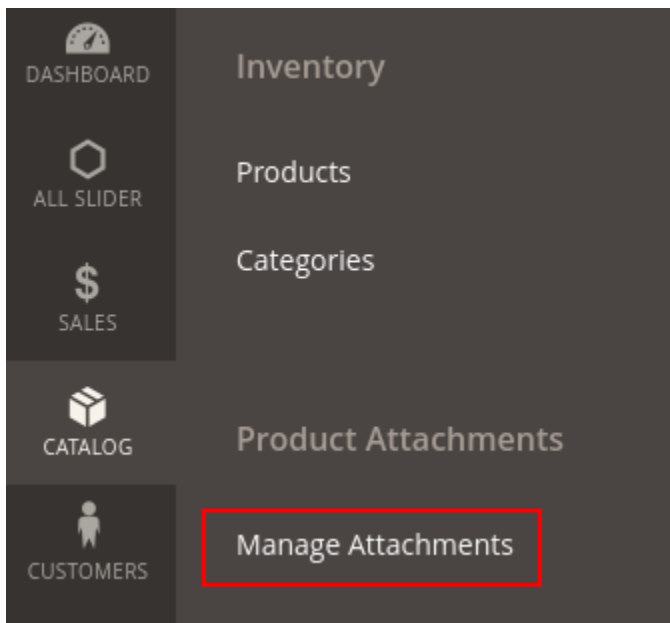

- Click on **THEONLINEHELPER > Product Attachment**.
- In **General Configuration**, select **Yes** from the field of Enable to enable the module.
- In the field of **Show On Product Details**, select **Yes** if you want to show product attachments in the product details.
- In the field of **Show On Product Tab**, select Yes if you want to show product attachment in the separate tab.
- In the field of **Show Attachment Size**, select Yes if you want to show attachment size on frontend.
- In the field of **Attachment Tab Label**, enter the name for the product attachment tab.
- In the field of **Max Size Upload File**, you can set the size of attachment like 2MB.

To set permissions

- Go to **SYSTEM > Permissions > User Roles**.

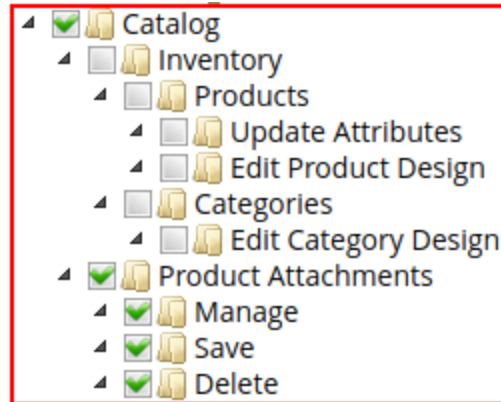

- Click on the **Add New Role** button.

- Under **Role Information**, in the field of **Role Name** enter the name of the role.
- In the field of **Your Password**, enter your current password for verification.

The screenshot shows a form titled "Add New Role". On the left, there is a sidebar with "ROLE INFORMATION" and two options: "Role Info" (highlighted with a red box and an arrow) and "Role Resources". The main form area has two sections: "Role Information" with a "Role Name" field (marked with a red asterisk) and "Current User Identity Verification" with a "Your Password" field (marked with a red asterisk).

- Under the **Role Resources**, select the role scope All/Custom.
- If you don't want to give complete admin access to other users then choose Custom scope.
- Tick on the permissions of Sales, to give access to Order.
- Tick on the permissions of Product Attachment, if you only want to give access of product attachment functionality to the other users.

- After completing your changes click on the **Save Role** button.
- In the admin grid, all roles are listed here.
