

Backend Reindex

Reindex extension purpose

Reindex extension by TheOnlineHelper allows store admins to update Single or multiple indexes manually right from the admin backend easily without running any command line.

Installation

How to Install?

- Download the .zip file of Reindex from admin module.
- Extract the downloaded file.
- Paste the file in your vendor directory.
- Run the setup upgrade command to install the module.

```
php bin/magento setup:upgrade
```

- Now run the command to clean cache.

```
php bin/magento cache:clean
```

Configuration

How to Configure?

In the admin panel, go to **System > Index Management**
